

K-LOVE is a vital service I pay for in my community. The FCC is a public organization that has no right to dictate what I listen to. If K-LOVE were displaced by a LPFM broadcaster providing other programming, the quality and necessity of this programming would be destroyed. K-LOVE provides a vital service to maintain the moral fabric of our society. The more people who listen to K-Love become better, more loving, considerate citizens. Don't remove this station, God is watching.
